he bitter trail in a woman's life is to childless. Who can tell how hard the uggle may have been ere she learnt to gn herself to her lonely lot? The ab- sence of this link to bind marital life ether, the absence of this one pledge mutual affection is a common disap- pointment. Many unfortunate couples come estranged thereby. Even if they not drift apart, one may read the whole ent of their disappointment in the eyes such a childless couple when they rest the children of others. To them the rest family does not seem to be numerous. n many cases of barrenness or child- lessness the obstacle to child-bearing is ily removed by the cure of weakness on part of the woman. FEAR ANOTHER STORM

PEOPLE OF MOBILE APPREHEN- SIVE OVER GALE SWEEPING UP FROM THE GULF.

RAIN CAUSES MORE DAMAGE

BUSINESS HOUSES SUSTAIN AL- MOST AS MUCH LOSS AS FROM RECENT HURRICANE.

Washington, Oct. 2.—The weather bureau announces that storm warn- ings are displayed on the east Gulf coast and on the Atlantic coast from Key West to Norfolk.

Mobile, Ala., Oct. 2.—The new gulf storm, according to the local forecast, is approaching from precisely the same direction as last Wednesday's hurricane. The barometer is falling and a heavy drizzle which, when accompanied by a declining barometer, is said by vesselmen to be invariably followed by a high wind, is falling.

Mobile, Ala., Oct. 2.—Haunted by the recollections of the great storm which has just passed, sustaining fur- ther injury and increased financial loss from a heavy rainfall and fearful of what tomorrow may bring, the resi- dents of the city of Mobile have had a most uncomfortable twelve hours and retired for the night filled with fore- bodings.

Many residents were at times in a state of semi-panic over the dispatches from Washington which directed that storm warnings be displayed along the Florida coast. There was a slight grain of comfort in the earlier mes- sages, as they did not mention Mo- bile among the places likely to be visited by the storm now coming up through the Gulf of Mexico. Late in the day, however, the name of Mobile was added to the list of places in the path of a possible tornado and Mo- bile's cup, which had been full of misery all day, commenced to run over.

Would Greatly Damage Buildings. It is a fact well known to every in- habitant of the city that a second vi- olent wind coming so closely after that of Wednesday, even though it does not reach the proportion of the recent hur- ricane, must cause greatly increased injury to buildings, and possibly some loss of life. Many structures were weakened by the blow Wednesday so badly that they will not be able to withstand a second attack. During the early evening the barometer here registered 29.63, and had been almost stationary during the greater part of the day. The office of the weather bu- reau was overwhelmed by anxious visitors who called by the hundreds to learn of the probabilities of another storm.

Local Observer Ashenberger was able to give only slight information. The business houses of the city sus- tained almost as much financial loss from a heavy rain storm which set in shortly after midnight and lasted about twelve hours, as from the recent disaster. There is scarcely a building in the business section of the city which has a roof capable of keeping out the rain. Many of them have no roofs at all, and during the storm, in which four inches of rain fell, the wa- ter poured down through elevator shafts, leaking roofs and upon unpro- tected upper floors, ruining much mer- chandise. One of the leading mer- chants declared unless the rain soon stopped he would be utterly ruined and compelled to go out of business. Others were in a condition almost as desperate.

Roof of Hospital Leaked. During the rain the water poured into the federal building through the elevator in such volume that large pools were formed on every floor. At his office in the city hall, Mayor Lyons sat at his desk, with his feet drawn up under his chair to keep them out of puddles on his carpet, and wore his hat to keep the rain from fall- ing on his head.

The roof of the city hospital, which was badly damaged Wednesday night, and had been temporarily repaired, was leaking badly and Mayor Lyons dispatched an emergency corps to make it a fit place for the sick. At a meeting of the citizens' relief committee it was agreed that while Mobile is entirely able to care for the suffering within the city limits, con- tributions from the neighboring sec- tions of the country will be accepted for the aid of the sufferers in the towns on the southern part of the bay.

At Alabama Port there are thirty-five people wholly destitute. At Her- ron Bay there is an equal scarcity of all comforts and necessities and con- siderable sickness with a total ab-

sence of medical supplies or surgical instruments. The situation on Mon- Luis Island is not as bad as previ- ously reported. There are some local supplies, but a scarcity of medicine. A great deal of bedding and food has been carried to Coden, but the supply is not sufficiently large to last for any length of time and must be frequently renewed.

It has been decided that all the people on Dauphin Island are to be brought to this city if another storm sets in. The revenue cutter Winona will visit the island for the purpose of bringing them off if necessary.

All the tugs in the Mobile river have fled upstream to escape a second hurricane, which they believe to be at hand.

The Louisville and Nashville Mon- day night brought trains into the city from the North for the first time since the storm.

The bodies of eight people were picked up Monday in the lower bay.

AFTER DAYS OF GLOOM.

Feeling of Cheerfulness Prevails at Pensacola.

Pensacola, Fla., Oct. 2.—A feeling of cheerfulness, after days of gloom pre- vails in stricken Pensacola and the citizens face the situation with confi- dence. It is known that the destroyed portions of the city, wharves and mills will be rebuilt on a larger scale.

Thousands of workers are employed in clearing away the wreckage and the waterfront has assumed a more pleasant aspect. It is believed one- third of the vessels beached can be gotten off.

Rear Admiral Capps has arrived to inspect the navyyard.

Three additional deaths have been reported, one a negro named Leslie Shepard at Robertson Point and the other two section hands near Escam- bia bridge. The death list is thus swelled to thirty-three.

The cutter Penrose, loaded with pro- visions, Monday made a trip the en- tire length of Santa Rosa sound, where she relieved many hungry and desti- tute families.

In the city every person is being cared for and every able-bodied man who has no work is compelled to work.

The mayor has issued a statement saying the estimate of \$5,000,000 loss is conservative.

PRESIDENT SMITH ARRESTED.

Head of the Mormon Church Accused of Polygamy.

Salt Lake City, Oct. 2.—The presi- dent of the Mormon church, Joseph F. Smith, was arrested Monday on the charge of living unlawfully with five wives. The complaint was sworn to by a Mormon deputy sheriff, the war- rant was served by order of a Mor- mon sheriff and the committing mag- istrate is also a Mormon. President Smith was arraigned immediately after his arrest and waived prelimi- nary hearing. He was bound over and released on his own recognizance.

President Smith reached here two days ago on his return from Europe. He then learned that an attempt had been made to secure his arrest for a statutory offense in connection with the birth of his forty-third child. The complaint was made from a distinctly anti-Mormon source. The county at- torney refused to approve a prosecu- tion on this charge. The attorney was then cited to appear in court and show cause why he should not be com- pelled to act in the matter. After the hearing the court held that the at- torney was justified in refusing to prose- cute, because the complainant offered no evidence that the mother of the child was not the wife of President Smith.

Whatever the motive back of Mon- day's proceedings, the effect will be to disarm the criticism that has been di- rected against the authorities for their failure to take cognizance of the ad- missions made by President Smith be- fore the senate committee during the late investigation of the Smoot case.

Snyder's Dead Body Found.

Portland, Ore., Oct. 2.—The dead body of Carey H. Snyder, wanted on a charge in connection with the robbery of the bank of Hillsboro, has been dis- covered near Hillsboro. Snyder was a son of Robert H. Snyder, the million- aire banker of Kansas City, now under indictment in St. Louis for alleged franchise bribery.

Drowns His Young Son.

Pittsburg, Oct. 2.—Patrick Coyne threw his three-year-old son over a bridge into the Mononghela river and followed after him. The son was drowned but the father was rescued in an unconscious condition. Upon re- gaining his senses he said that he was drunk and remembered nothing of the occurrence.

Pension List Decreases.

Washington, Oct. 1.—The net de- crease in the pension roll of the United States for the fiscal year end- ing June 30, last, amounted to 12,470, the largest decrease ever known in the history of the country.

Have you ever seen the Macpherson and Langford skirt?

This is, without doubt, the best fit- ting and most stylish skirt made. Every skirt is made as a "special order" and fitted twice upon a living model before it leaves the factory. The result is that they produce a skirt that fits perfectly and a perfect fitting skirt gives twice the service of one that does not fit.

We have a number of splendid styles in stock and also have a line of their samples from which we make up special orders. You are guaranteed absolute satisfaction in your skirt when we make you a special order.

If you would know something of skirt satisfaction ask to see the Macpherson and Langford skirt.

STREET CAR JUMPS THE TRACK.

Child Killed and a Score of Men and Women Injured.

New York, Oct. 2.—A child was killed and a score of men and women were injured, five or six dangerously, when a runaway car of the Yonkers street railway dashed down the steep incline of McLane avenue, jumped the track at a sharp turn at the foot of the hill and turned over, burying the passengers in the wreckage.

Village Almost Wiped Out.

Traverse City, Mich., Oct. 2.—Al- most the entire village of Northport has been wiped out by fire. The esti- mated loss exceeds \$50,000. The prin- cipal losses are the Northern hotel, \$10,000; H. E. Gills' general store, \$18,000; car ferry dock and warehouse, \$15,000, and residence of Carl Shroe- der, \$5,000.

TELEGRAPHIC BREVITIES.

The Sikh policemen in the British concession at Shanghai, China, have gone on strike for an increase of pay.

Holland Feary was so severely in- jured at Portland, Ore., during a prac- tice game of football that he probably will die.

Joe Walcott of Boston and Billy Rhodes of Kansas City fought a twenty-round draw Sunday on a sand island in the Missouri river near Kansas City.

The body of a man, supposed to be Frank Ronda, was found hanging to the limb of an oak tree in the aban- doned Maple Hill cemetery, Minneap- olis, Sunday.

Frank Lukaszewski of St. Paul shot himself in the left knee while attempt- ing to shoot a snake with a revolver at North St. Paul. He died at a St. Paul hospital from loss of blood.

JOHN LIND, former democratic governor and congressman from this state, is preparing to become an independent candidate for the city council of Minneapolis.

A MICHIGAN justice of the peace who some time ago inaugurated the system of giving trading stamps to all couples married by him has added another inducement and now gives in addition a photograph of himself to every couple that come to him for the marriage service.

N. F. HUGO, of Duluth, is a prominent candidate for speaker of the next house and is making a canvass among the members elect. Mr. Hugo was a candidate for the position two years ago but was unsuccessful. Ambrose Tighe, well known in this city and who was elected to the legislature from St. Paul, is also prominently mentioned as among the possibilities.

As the Lake City Republican says, A. L. Cole is not an orator and does not pretend to be one. He is just a plain, practical citizen and possesses enough ability as a speaker to define his position on state and legislative matters in a clear and forceful manner, and his sound arguments are commanding the confidence of voters in all sections of the state. He should be elected by a rousing majority in November.

The congressional contests in Minnesota succeeded in bringing out a large vote at the primaries recently held, the total republican vote in all the districts amounting to 168,615. At the last general election the republican candidate received 140,130 and the lieutenant governor 155,014. It is safe to assume, however, that out of this vote cast for republican congressman at the primaries there were several thousand which at the general election will go to the democratic nominees. The primary vote under the present law is not an indication of party strength.

FROM THE STATE CAPITAL

The opening of the Republican campaign by the Roosevelt Republican club of St. Paul on the evening of Sept. 24 was one of the most encouraging political meetings ever held in the Capitol City. The hall was not only packed with people, but it was an enthusiastic audience. Mr. Cole's speech made a very favorable impression. Ex-Governor Van Sant presided and introduced the speakers. Congressman Stevens made a telling speech and the temper of the meeting was a good augury that St. Paul will give the whole Republican ticket a substantial majority in November. St. Paul has a habit of going Democratic at the spring election and Republican in the fall. History seems very likely to repeat itself this year. It was noticeable that a large number of what ought to be termed the "old guard" of the Republican party were present. At the conclusion of the meeting a formal resolution was unanimously passed pledging the support of the entire audience to the full ticket.

In Governor Johnson's keynote speech at Red Wing he made an attack on Mr. Cole, saying that Mr. Cole favored securing more laws to obtain the proper revision and reduction of railroad rates. Governor Johnson declared that this was just a subterfuge to make delay and that our existing laws were "efficient and sufficient," and only needed enforcement. He admitted only one law that is needed, which is a reciprocal demurrage bill. Mr. Cole in his St. Paul speech made a dignified but crushing reply to this attack. He said he was not only in favor of enforcing the existing laws regulating railroads, but he was in favor of supplementing them with other laws which would aid in the great work of railroad reform. He then enumerated some of the necessary laws which should be adopted and which he would recommend. They were:

A law providing for the prompt enforcement of orders of the railroad and warehouse commission; one providing that railroad officials who grant rebates should be sent to jail; abolishing the free pass system; reducing passenger rates to 2 cents per mile; proper and sufficient demurrage laws; authorizing the railroad commission to investigate and ascertain the cost of the railroads and make their rates to be a fair income on the actual money invested; the making of our state laws to conform to and be in harmony with those of the federal government.

Here are at least half a dozen laws which every one can realize are important if the people are ever to properly grapple with the railroad question; yet Governor Johnson says our present laws are "efficient and sufficient." It looks as if, in the light of this reply, that Governor Johnson was the man seeking to secure delay in the real work of regulating railroads instead of Mr. Cole. The uproarious applause with which Mr. Cole's reply was received indicated that his large audience entertained that view. It was a telling hit and Governor Johnson is not likely to talk much more about our "efficient and sufficient" laws regulating the railroads. It is quite apparent by this criticism and reply that the relief from excessive railroad charges, when it is received, will have to come from Mr. Cole rather than Governor Johnson.

Dr. A. B. Cole, the chairman of the Republican state central committee, was called out by Governor Van Sant. He predicted that Hennepin county would give Mr. Cole a majority this year. This prediction shows who is to be the next governor of the state, in the judgment of those who are actively at work in the contest and in a position to have more reliable information than is vouchsafed the average citizen.

Among the wonderful things which Governor Johnson claimed for his administration was the abolishing of box car merchandising by the dairy and food commission. As this was the direct result of a law passed by a Republican legislature, introduced by Mr. Lauritsen of Lincoln county, it shows that Governor Johnson's only hope of making a strong record is to claim all of the good work done by the Republican party as his own, because during the period he sat idly in the governor's chair doing nothing. No pentup Utica for him. He claims all of the good things done by a Republican legislature and by all of the Republican state officials.

No one assumes for a moment that the Democrats can elect any member of their party for governor and they are not even attempting it. They are simply catering to secure enough Republican votes to add to their own partisan strength to win Governor Johnson, in his Red Wing speech, frankly conceded that he was elected two years ago by Republicans and returned very properly his thanks therefor. He has made a smooth, quiet, do nothing governor. This is not said as any personal disparagement to him. As the sole representative of his party in a great and powerful state administration he has been seriously handicapped in the securing of results. The same condition would result if he was chosen for the succeeding two years. His lines of thought would be antagonistic to all of his associates in conducting the business of the state, save those of his own appointment.

CAUCASIAN AND NEGRO.

They Are Fundamentally Opposite Extremes in Evolution.

The Caucasian has the subjective faculties well developed; the negro the objective. The Caucasian, and more particularly the Anglo-Saxon, is dominant and domineering and possessed primarily with determination, will power, self control, self government and all the attributes of the subjective self, with a high development of the ethical and aesthetic faculties and great reasoning powers. The negro is in direct contrast by reason of a certain lack of these powers, and a great development of the objective qualities. The negro is primarily affectionate, immensely emotional, then sensual, and, under provocation, passionate. There is love of outward show, of ostentation, of approbation. He loves melody and a rude kind of poetry and sonorous language. There is undeveloped artistic power and taste—negroes make good artisans and handicraftsmen. They are deficient in judgment, in the formation of new ideas from existing facts, in devising hypotheses and in making deductions in general. They are imitative rather than original, inventive or constructive. There is instability of character incident to lack of self control especially in connection with the sexual relation, and there is a lack of orientation or recognition of position and condition of self and environment, evidenced in various ways, but by a peculiar "bumptiousness," so called by Professor Blackshear of Texas, this is particularly noticeable.

The white and the black races are antipodal, then, in cardinal points. The one has a large frontal region of the brain, the other a larger region behind; the one is subjective, the other objective; the one a great reasoner, the other pre-eminently emotional; the one domineering, but having great self control, the other meek and submissive, but violent and lacking self control when the passions are aroused; the one a very advanced race, the other a very backward one. The Caucasian and the negro are fundamentally opposite extremes in evolution.—Robert Bennett Bean in Century.

Can't look well, eat well or feel well with impure blood feeding your body. Keep the blood pure with Burdock Blood Bitters. Eat simply, take exercise, keep clean and you will have long life.

The Catlike Fox.

The fox is an excellent mouser. He will lie and watch for a field mouse in the long grass like a cat, pounce upon it, kill it with a bite and lay it on one side until he has caught another and another, when, picking them all up, as many as he can carry in his mouth, he will canter away with them to serve them out to the cubs. This fact was confirmed by witnesses in Scotland who were examined by a committee of the board of agriculture when taking evidence on the occasion of the plague of field voles on the lowland sheep farms in 1893.—London Graphic.

BLAST FURNACE FOR MINNESOTA

United States Steel Corporation
Said to be Preparing to Erect
Mammoth Plant

LOCATION NOT YET DECIDED

Any Work in this Line will Help
Properties on the Cuyuna
Range More or Less

Sunday's Minneapolis Journal contains the following from New York. Mr. Longyear is also said to be heavily interested in Crow Wing county iron propositions. It is not yet known where the blast furnace will be erected, but any means for reducing the ores without shipping out of the state must aid in the development of the Cuyuna range, whether the furnace is located here or on the Mesaba range.

Immense blast furnaces for the reduction of ore will probably be installed in Minnesota by the United States Steel corporation as the result of its having leased the vast Hill iron properties in that state.

It has been demonstrated that the steel company can distribute its finished products from Minnesota much more cheaply than it can ship ore via the lakes and rail to eastern smelters, and the North Star state has excellent prospects of obtaining a most important industry by virtue of this saving.

Strategic Point.

Another argument favorable to the rumor that smelters will be established in Minnesota is the big market for rails and other finished products in the west and northwest. These markets could be more speedily and less expensively served from Minnesota. The big inroads which the Consolidated Lake Superior company is making in Canadian market are another spur for a Minnesota plant.

The immensity of the steel corporation's ore deal in Minnesota is not yet fully appreciated in Minnesota. There is no doubt that the steel trust has been figuring on the advantages it will reap when the Mesaba range comes fully under its control for a long term, and extensive plans have been mapped out, which have not yet been communicated to the public. However, within next week it is expected that the trust will take the public into its confidence and give it some idea of the great works which are to be created in the ore region.

Makes Fortune by Deal.

Through the sinking of the Hill ore land lease J. W. Longyear, a man practically unknown to the world of finance

in the United States, will receive royalties that will amount to \$34,000,000 from the United States Steel corporation.

Mr. Longyear owns 30,000,000 tons of iron, which he accumulated in many years of prospecting in the rich iron ore lands of the lake region. In the scramble for these properties, made after the trust era, he held them unsalable and added to his possessions. He has just joined with Mr. Hill in the negotiations to lease the lands. By the stroke of a pen he is assured one of the largest fortunes ever accumulated through the ownership of ore land.

Mr. Longyear moved from Marquette, Mich., about a year ago to Boston, where he attracted much attention by bringing with him a stone mansion, which he has set up on Fisher hill, Brookline, stone for stone, as it was in Michigan.

There is nothing that takes away the beautiful, womanly charms like a plodding, stooped, awkward carriage. There is absolutely no excuse for that so long as Hollister's Rocky Mountain Tea is made. Tea or tablets, 35 cents. H. P. Dunn & Co.

ARE HERE TO AUDIT CITY BOOKS

Accountants Arrived in City Yesterday to Audit Accounts of the City.

THE WORK WILL BE THOROUGH

So Far as Possible there will be Complete Checking up of the Books

C. E. Latham and F. E. Holmes, of Minneapolis, arrived in the city yesterday to audit the city's books. They took a cursory glance at matters in the city clerk's office yesterday but did not begin actual work. They expect to get busy today however and will continue at the work until it is completed.

When seen by a DISPATCH reporter this morning Mr. Latham declined to talk regarding the extent or scope of the work to be done, further than to say that it would go into everything so far as the records to work from would permit.

It is not known how long it will take to do the work, but the party engaged rooms at the Ransford saying that they would be here about three months.

THE DAILY DISPATCH brought to your door for only 40 cents per month

N. W. TELEPHONE CO. ASKED FOR DELAY

But the City Council Passed Ordinance Granting Franchise to H. F. Mann.

MADE LEASE TO MCKINLEY

Council also Transacted Other Business and went into Executive Session.

The Northwestern Telephone company on Monday asked the council to delay the consideration of an ordinance granting to Horace F. Mann a franchise for entering the city with his Mille Laes line, and for a local telephone exchange, but the council passed the ordinance nevertheless.

The ordinance granted Mr. Mann provides for a maximum charge of \$2 per month for business phones, \$1 a month for party lines in residences and \$1.50 for private lines. Mr. Mann also agrees to give the city six phones free when he installs a local exchange. In order to hold his franchise, however, it is only necessary that he put in his line from Garrison.

After going into executive session for some time the council went into open session and ordered the superintendent of the electric light plant to take an inventory of all the property on hand for the use of the men auditing the books.

When President Johnson called the council to order Monday evening the following aldermen were present to report to roll call. Aldermen Peterson, Squires, Twohey, Armstrong, Opsahl. The minutes of the last regular meeting were read and approved.

Aldermen Gardner came in. The report of the street commissioner for the month of September was read and approved.

Alderman Halladay came in.

The report of the fire chief for September showed that there were two fires during the month, one at East Ninth street; the other at the J. M. Gray building, corner of Fifth and Laurel street.

In the allowing of bills the first snag was in the bill of election expenses in the First Ward. There was a charge of 75 cents each for making out the poll list. After some talk the bill was allowed.

The Crane & Ordway Co. presented a bill claiming the sum of \$39.41 as due them as assignees of Louis Sherlund. Referred to the purchasing committee.

The Austin-Western Co. presented a bill for \$275 for street sweeper contracted for at \$250. It was referred to street committee.

The bill of the American Electrical Heater Co. for \$50, due July 16, 1906, and letter accompanying same, were read and referred to purchasing committee.

The public ownership party presented a list of persons they wished appointed as election judges. The list was as follows:

First Ward—Gus Raymond.
Second Ward—R. A. Henning.
Third Ward—E. T. A. Evenson
Fourth Ward—A. Sanders
Fifth Ward—Mr. Quinn.

The report of the committee presenting the proposed ordinance giving Horace F. Mann the right to establish a telephone exchange was on motion approved.

City Attorney Mantor reported on the request of the municipal ownership party, that in his opinion, the judges of election must be appointed before the primary election, and therefore the said municipal ownership party was too late in making its request.

The ordinance granting a telephone franchise to Horace F. Mann was read. Dr. Werner Hemstead appeared in behalf of the Northwestern Telephone Co. and requested that the action on the franchise be delayed until the next regular meeting.

The ordinance received its first reading, all voting aye.

Moved by Alderman Twohey that the rules be suspended and the ordinance receive its second reading, all voting aye except President Johnson.

Moved by Alderman Twohey that the ordinance be adopted. Ayes, Halladay, Gardner, Peterson, Squires, Armstrong, Twohey, Johnson. Nays, none. Ordinance declared adopted.

Sidewalks were ordered in front of lots 7, 8 and 9, block 2 and lot 12, block 7, East Brainerd. All except Alderman Opsahl voted aye.

Alderman Twohey wanted the matter of cleaning the general sewer to be taken up.

Moved by Alderman Squires that the sewer be cleaned out as soon as possible and Alderman Twohey seconded the motion. President Johnson suggested that it be referred to the sewer committee in conjunction with city engineer with power to act, which was done.

The purchasing committee, on leasing land to G. A. McKinley and his associates, reported favorably on a resolution ordering the execution of said lease.

The city engineer reported that the walk in front of lots 5, 6 and 7, block 78, was pitted by frost which damaged the looks but did not otherwise injure it.

Resolution ordering the execution of

a lease to G. A. McKinley of the land near light station was adopted, all voting yes.

AMUSEMENTS

Faust Is Coming

It will be welcome news to many theatregoers in the city, the announcement that the famous play of Goethe's immortal "Faust" will be presented here on Monday next, Oct. 8th, at the opera house by the Porter J. White Co. No play written in many years has retained such a hold on the hearts of the public. It has proved to be far better than the book, for while the play has steadily held its popularity, the book is now almost forgotten. It was revived in New York City last spring and actually drew

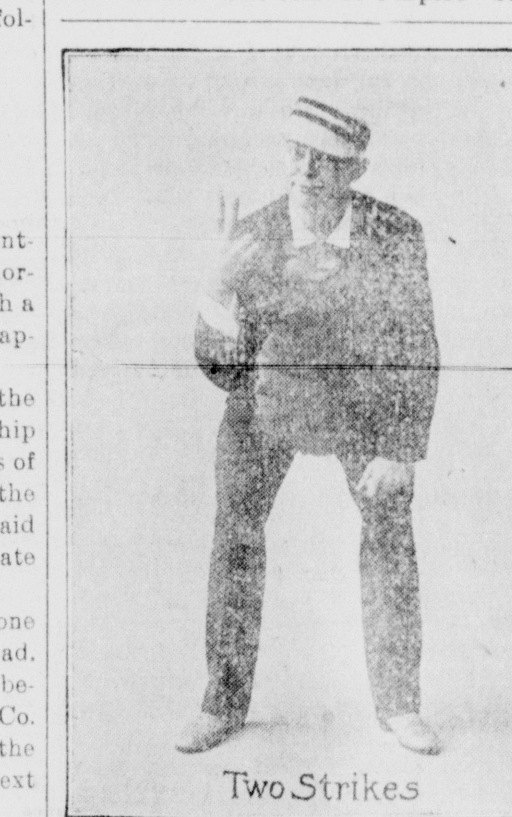

Mephisto in "Faust"

larger audiences than it did at the presentation of the original production years and years ago. This great play will continue to entertain as long as we have laughter to reward wit, tears for the sorrowful, and sympathy for the fallen. It is still as fresh as the newly minted coin and has the fizz of the sparkling champagne.

"The Umpire"

"The Umpire" is one of those blithe musical comedy affairs that fairly swoops the audience with it by reason of its sunny comedy, haunting music, and swift dramatic action. It is to be seen in Brainerd on Wednesday, Oct. 10th, presented by Manager Harry Askin's company, which is headed by Fred Mace, Guelma Baker, Edith Yerrington, Harry Hanlon, and other well-known comedians. The famous Umpire "broil-

Two Strikes

Fred Mace as "Umpire"

ers" will be in evidence, submitting as one of the features of their portion of the entertainment, a realistic football game. This contest is played in earnest and has resulted in much rivalry and many bruises for its fair participants. "The Umpire" was played nearly a year in Chicago without interruption. Further comment is superfluous.

AMERICAN IS VICTOR

UNOFFICIALLY ANNOUNCED TO
HAVE WON INTERNATIONAL
BALLOON RACE.

ONE CONTESTANT IS MISSING

RESULT OF THE RACE IN DOUBT
UNTIL ROLLS OF ENGLAND
IS HEARD FROM.

Paris, Oct. 2.—The Aero club has unofficially announced that Lieutenant Frank P. Lahm of the Sixth United States Cavalry, one of the American contestants, was the victor in the first competition for the James Gordon Bennett cup for international aeronauts. The race was started Sunday afternoon, when fifteen balloons representing seven countries sailed away from the Tuilleries gardens, Paris. Lieutenant Lahm's apparent victory may be changed when the Hon. C. S. Rolls, one of the English contestants, is heard from. Rolls' landing has not yet been recorded and there is some doubt regarding his relative position.

Up to the present time, however, the performance of Lahm and Kersey, in the balloon United States, in reaching fifteen miles north of Scarborough, Eng., is the best record attained by any of the fifteen starters. The members of the Aero club are inclined to believe that the United States was only prevented from proceeding farther because a current of air again threatened to carry her over the North sea, with no apparent prospect unless the direction of the wind changed of finding land before making the coast of Norway.

Crowds of prominent aeronauts were at the clubhouse all day awaiting telegrams reporting arrivals. The first reports recorded the landing of five balloons in Normandy. It was then considered certain that the remainder would cross the channel and a few hours later came dispatches telling of the landing of the Spanish and one French balloon on the South coast of England and the report that four others, including the United States, had passed over Hastings, going due north.

Rolls is still to be reckoned with and a definite announcement of the result cannot yet be made. The absence of the Britannia, Rolls' balloon, from the list of landings, causes increasing disquiet, as the hours go by, some thinking that a current of air must have carried him out to sea while others believe that he has landed somewhere in England and has not yet been able to get to a telegraph wire. The Britannia was last seen near Hastings, Eng.

MINNESOTA YOUTH KILLED.

Puts Gun Down While Talking and Charge Is Exploded.

Winona, Minn., Oct. 2.—Charles Schnipp, the eighteen-year-old son of Michael Schnipp of Bluff Side, shot himself accidentally and died instantly. Young Schnipp was at the home of Robert Staup, where he had been employed, and in company with a number of others, was going out hunting. He had a gun in his hands and stopped in the yard to talk. He intended to drop the stock of the gun on the wagon tongue, but missed it and the trigger struck the tongue. The charge exploded and took effect in the boy's neck and head, causing instant death.

GAS TANK EXPLODES.

One Politician Killed and Eight Others Injured.

Indianapolis, Oct. 2.—While twenty Republican precinct leaders of Hancock county were holding a caucus in the town hall at New Palestine, a town fifteen miles east of Indianapolis, the acetylene gas tank exploded, killing one man and injuring eight others. William Toon, a rural carrier, was killed and Elmer J. Binford, William A. Howe, James F. Reed, W. H. Rock, J. L. McCune, John Branson, John Hittell and William Hobbs were injured.

POLICY KING SUICIDES.

"Al" Adams, Who Made a Fortune in Gambling, Kills Himself.

New York, Oct. 2.—Albert J. Adams, who made a large fortune as the head of the policy gambling combine, shot himself in the head at his home in this city. His dead body was found in his room.

Adams had been in poor health since his release from Sing Sing prison, where he served a term for having conducted a policy game in this city.

ROOSEVELTS IN WASHINGTON.

President and His Wife Return to the Capital.

Washington, Oct. 2.—President and Mrs. Roosevelt have returned to Washington from their summer home at Oyster Bay, where they have spent the past three months.

The president and his party occupied a special car which had been attached to the regular Pennsylvania railroad train from New York. In addition to his family those with him included the wife of Secretary Loeb, Mr. and Mrs. Clifford Richardson of New York, intimate friends of the president and Mrs. Roosevelt, and H. S. Latta, the assistant secretary to the president, and several of the White House clerical staff. The president's car was detached from the train before reaching the station and shifted to a side entrance where the carriage was in waiting. Here various officials of the government had gathered to welcome him.

ESTABLISHES A NEW RECORD.

Canadian Athlete Wins Marathon Race in Chicago.

Chicago, Oct. 2.—Dennis Bennett of Hamilton, Canada, won the forty kilometer grind of the Illinois Athletic club's Marathon race here over a field of forty-two starters, covering the distance in 2:41:33 and establishing a new record in the West. His closest rival at the finish was S. H. Hatch of River Forest, Ill., whose time was 2:46:55. Ravinia Park, twenty-nine miles north of Chicago, was the starting point of the long run, the finish was at the Illinois Athletic club's clubhouse on Michigan avenue. Mayor Dunne fired the pistol that started the field away.

TRANSPORT MAY BE TOTAL LOSS.

The Sheridan Floated and Later Beached at Pearl Harbor.

Honolulu, Oct. 2.—The United States army transport Sheridan, which ran aground on Barbers Point at the southwest extremity of the island of Oahu, was floated Monday with the assistance of the transport Buford. While both vessels were on the way to this port it became apparent the Sheridan was about to founder and she was beached. She was driven on the beach at the entrance of Pearl Harbor, where she is now in a worse condition than before.

The Sheridan was being towed to Honolulu but after floating she took a heavy list. When she had proceeded about ten miles from Barbers Point, half the distance to this point, her lines attached to the Buford and the tug Manning were suddenly cast off. Her bow was pointed toward the shore and she was beached in a position which is difficult to reach. The Buford, Manning and other tugs are standing by to lend her all assistance possible. It is believed that a big hole was torn in the hull of the Sheridan as she was coming off the reef and it is believed she will be a total loss.

STILL OF VERY LARGE VOLUME.

But Distributive Trade Shows Some Irregularity.

New York, Sept. 29.—Bradstreet's review of trade says distributive trade is still of a very large volume, but there is enough irregularity to prevent broad generalization. The close of September finds the usual evidences of subsidence in wholesale trade, but retail is better on more seasonable weather, except at the South, where severe storms have stopped cotton picking, checked movement and retarded collections. Cereal crop reports are rather better, threshing having been resumed at the Northwest, where quality has been injured. Corn has definitely passed out of the range of frost damage and cutting of a record crop of fine quality is now in progress. Industry generally was never so active and there is much complaint of backward deliveries, particularly of iron and steel and dry goods ordered for fall and winter delivery. Car and engine shortages are a source of annoyance and tend to become more acute as the movement of the later crops is added to the already heavy volume of general traffic offering.
